THE EASTERN SITUATION

London, Dec. 1.—Plans for the next step to coerce Turkey have not been definitely arranged, the other powers awaiting the British proposals. The foreign office says that the British government does not know exactly the extent of coercion to which the other powers are willing to resort. It is not certain that they will start actual warfare in order to enforce the demands for the financial control of Macedonia. This view of the situation makes it quite possible that demonstration by occupation may proceed somewhat indefinitely. The present political situation in the United Kingdom naturally increases the reticence in official circles here as Great Britain is taking a lead, the movements of the demonstrative fleet may be delayed for some time, pending the decision of the cabinet concerning its resignation or the dissolution of parliament.

The government has received information from Sofia that the Macedonian committee has issued what is practically an ultimatum, that unless the demonstration of the powers shall be carried to a successful issue, the revolutionaries are prepared to announce that they intend to create a situation which will result in a war between Turkey and Bulgaria. It is well known that Bulgaria has been preparing for eventualities since the revolution of 1903. An accord having been reached between Bulgaria and Rumania concerning Macedonia, these two governments are now prepared to try conclusions with Turkey should the necessity for such action arise.

CHRISTMAS CANADIAN

Packed full of good things is the Christmas number of our national periodical, The Canadian Magazine. The illustrations are wonderfully well done, and are over fifty in number. These include full-page plates of such famous pictures as Correggio's "Holy Night," Del Sarto's masterpiece "Maddona of St. Francis," and his "Apostle James," and Sir J. E. Milnes's "A Disciple." There is also a splendid series of full-page plates showing the harbours and ports in Canada: Victoria, Fort William, Sault Ste. Marie, Depot Harbor, Toronto, Montreal, St. John and Halifax. These pictures indicate Canada's marine possibilities in a most graphic manner. The two leading articles are "Andrea del Sarto," by Herbert M. Vaughan, and "Canada After Twenty Years," by Sir Gilbert Parker. The stories are excellent, and are by Nellie L. McClung, Jean Blewett, Alice Jones, and Verna Sheard—all Canadian women. The description of "A Prairie Fire," by Douglas Robertson, is a vivid bit of word painting, and its vividness is increased by the illustrations. The book reviews are especially good this month, and the departments of comment and criticism are thoroughly interesting. The cover is a beautiful piece of work, with the Sistine Madonna as the centre-piece in the design.

STREET RAILWAY QUESTION
I shall strongly urge the council to prompt action in regard to this question. There is danger in keeping the question open for any considerable time. In the public interest, the council should, without unnecessary delay, commit the city as far as possible to the principle and policy of public ownership. To do this effectively the system of a road should be planned and constructive operations begun next year.

The present rapid growth of the city justifies this and if the street railway doesn't pay at the beginning, that condition will not last long. I am in favor of referring the question of the city's position in regard to the railway charter, if necessary, to the courts for decision. It is important that we should know beyond question where we stand in this matter.

CITY PARKS

The consideration of this question and well planned action should take place at an early date. It would be good business to consider it in relation to the tramway system. Private companies operating tramways find that it pays them to own and equip park and pleasure grounds in connection with their tram lines. This should be kept in view in choosing park sites. As an officer of the board of parks I urge the necessity of action already in the matter. The longer the question is postponed the more difficult and expensive its solution will be.

RE TELEPHONES

It is imperative that an up-to-date system of telephones be installed with the least possible delay. The council should first of all decide the policy to be adopted in regard to connections with other towns and cities and the rural districts. Then, with the information already at hand and with the aid of expert advice they should decide what system to adopt and begin operations as early as possible next spring.

THE GRAND TRUNK PACIFIC RAILWAY

No one can be gained by leaving this question any longer unsettled. If the railway authorities will not meet us here we should send a deputation to them with power to sign a preliminary agreement in the best manner possible.

RE THE COMMISSIONERS

The provision in our city charter in regard to the commissioners and their duties should be upheld. I should like to see complete reports in regard to all the city's work should be on file for the information of the council. The aldermen should criticize the work of the commissioners where they deem it necessary and the latter should be strictly responsible to the former. After careful investigation a commissioner is found unfit for his office no question of sentiment or friendship should stand in the way of his removal.

BETTER ORGANIZATION NEEDED

Too much importance cannot be attached to the proper organization of the different departments of the city's service. The duties of each regular officer should be outlined in written form. He should keep a complete record of the work of the employees under him, and should be held accountable for the proper discharge of their duties and of his own. Care should be taken that there may be no overlapping of the duties of different men as has been charged in the past. The whole executive machine should be adjusted so that there may be the least possible friction and so that every public servant may be encouraged to do his best in the city's interest. My experience in business has shown me the immense importance of systematic organization and if elected this shall receive my special attention.

THE FIRE DEPARTMENT

Good progress has been made this year in this important department of the city's service. Every reasonable demand for the improvement of the department should be promptly met and the work of men who are devoting themselves to this service should be appreciated by all and encouraged in every proper way.

PROGRESS

There are several other questions of interest and importance, but as will be seen from the foregoing, I stand for progress along all lines consistent with the city's finances. The bright future of our city is assured, but it is necessary if we are to obtain and retain our proper position as indeed the capital city of this province that a vigorous and progressive municipal policy be carried out.

VANCOUVER MEN

Fighting for the Commercial Life of their City Against C. P. R. Extortion.

"Vancouver, Dec. 4.—What was practically an ultimatum was presented to the Canadian Pacific Railway Company by the merchants of Vancouver, a resolution being passed at Monday's meeting asking for a "yes or no" answer in the three days. On Monday, Mr. Greer, general freight agent, was unable to give the answer that the meeting in the board of trade rooms was summoned to receive from him, and simply asked for more time to consider the local request for the same rates to Calgary, Edmonton, and Montreal from the coast as are enjoyed by Winnipeg.

"Some seventy-five shipping merchants, representing every firm of importance in Vancouver, crowded the board of trade rooms to receive Mr. Greer and to be disappointed in their expectation of satisfaction from the C.P.R. While exhibiting a determined attitude, and while noting the entire absence on the C.P.R.'s part of any consideration for them, they decided to avoid any semblance of similar inconsiderateness by stretching the limit of their patience for another three days, until Nov. 10, and he it resolved that this meeting stand adjourned till that time."

"Resolved that Mr. Greer be asked to give a definite answer to our requests for equal rates with Winnipeg, to Calgary, Edmonton and Montreal, a 'Yes or No' by 4.30 p.m. on Thursday. Noting that he it resolved that this meeting stand adjourned till that time."

"There was an undoubted consensus of opinion at the meeting to the effect that drastic measures would be justifiable, if needed to secure from the C.P.R. the redress on which the commercial prosperity of the city depends, and the only point on which any difference arose was on the question of granting more time to the railway company for consideration of the memorial presented over a month ago. It was finally decided as shown by the foregoing resolution, that another three days was all the shippers could be expected to concede."

"The shippers do not ask for a brand new freight schedule at the end of three days, printed and bound and complete in every detail; they simply ask the C.P.R. whether they will or will not give Vancouver the same treatment as Winnipeg in freight rates to Calgary, Edmonton, and Montreal, and they ask for a plain 'yes or no' answer at 4.30 on Thursday afternoon. And if they do not get the right answer further developments of an interesting nature are to be expected."

"There was no mistaking the determined attitude of the shippers. At the conclusion of the meeting every man of the 75 held up his hand and solemnly pledged himself to attend the meeting on Thursday, in the board of trade rooms, to again receive Mr. Greer. Before this stage of the proceedings had been reached, the railway representatives and carriers had been asked to withdraw."

Mr. A. F. McLennan, President of the board of trade, occupied the chair at the meeting and introduced those present on the object for which they had come together, an object with which he pointed out that Vancouver has been rendered familiar through the columns of the press. Mr. Greer, who was of course, present, was invited to present the answer of the company to Vancouver's request, and referred briefly to the previous history of the present movement and the various reasons for the delay that had already occurred and to which he was not yet prepared to put an end. He stated that the company required more time. Calgary was also asking for a readjustment of rates to Edmonton, and Winnipeg, too, was making similar requests. He also thought that as the matter was now before the railway commission, it would be well to wait for a decision from that body. On being asked that this action was an old one, Mr. Greer admitted that it had been up before, and said that the Canadian northern was to blame for it coming up again. The present condition was not of the C.P.R.'s seeking, but had been produced by the invasion of the North West by the Canadian Northern. Asked to name a date on which he could give an answer to the request of the Vancouver shippers, Mr. Greer declined. Finally the meeting adjourned to allow of Mr. Greer's withdrawal, after which the real meeting began with the result already given.

"Much sympathy is expressed by a number of shippers for Mr. Greer. They think that he is between the upper and nether mill stones. Some of the personal friends of the C.P.R.'s popular freight agent, and they do not like to appear in personal opposition to him. Several of them remarked to a World representative on Monday evening that they felt that Mr. Greer personally associated with Vancouver's side of the present question. A Vancouver man of long experience and a student of freight rates, who did not fail to see the justice of Vancouver's claims. While the shippers had invited him to oppose him, they hoped he would recognize that it was the company they were opposed to, and that as they recognized it was the company he represented in the past."

"It is mentioned the shippers are not losing interest in the life and death struggle they are now engaged in. The C. P. R. may be able to get along without carrying any Vancouver freight to the North West, but Vancouver men believe that in that territory or sink into commercial ruin. It is urged by the shippers that only the Vancouver men who are shipping goods to the North West can be of any use to the C.P.R. The shippers are of the opinion that the company better than the shippers in this case. The shippers can only haul a portion of the freight out of Winnipeg, that is, the city for the North West, freight out of Vancouver for the rest of the province, and the development of Vancouver's North West trade is in the company's own best interest."

STOVES

will soon be needed, and no doubt they will go with a rush.

If you want a first class up to date Cast Iron Range that has been a winner for many years, we have the "Happy Thought." There is more of this Range in use than any other one Range in Canada, and no person has ever heard of a poor one. Then, if you want an all steel and malleable iron range, we have the "Mozarch." You cannot break this range and it has a mirror polished top which makes it a thing of beauty to look at as well as to use.

For any up to date line of heating stoves we think we have them all beat. It is not a case of your having to take what we have; our assortment justifies us in saying you can get just what you want from us.

We have from the smallest to the largest heating stoves in any style and for any purpose, to burn both coal and wood, or both. The prices are made to suit the pockets of all, and while we make only a very small profit on each stove we think the quantity we sell justifies us in saying that we can sell on so close a margin and still hold our own. We have everything in Stove Trimmings, and first class Mechanics to deliver and put them up. Do not waste time in king all over the city, but come direct to us.

Messrs. Johnson and Gunnerson, of North Dakota, are at the Royal. They have come up to have a look at North Alberta's fair farm lands. They have already located about eighty miles northwest of Moose Jaw near the loop of the Saskatchewan, are much pleased with the prospects and will carry good reports to their friends in the United States, many of whom are also coming west.

CALGARY BUILDING RECORD

Calgary, Dec. 2.—The official year in the building line, as far as the official report of Chief Smart, building inspector is concerned, closed Nov. 30.

Following are figures taken from the chief's report. Of course, there is a great deal of work done which is never passed through his hands. A few small buildings are run up in isolated sections for which permits are never taken out and a great deal of alterations and repairs done which do not require permits but which all add to the value of the various properties and furnish work for mechanics.
